

Storage for kids can be as beautiful as it is functional. This locker provided inspiration for the room's color scheme.

To truly put your personal stamp on a space, have a bed custom built, such as this one with stairs and bookcase cubbies.

Filled with an attractive palette of blues and greens, this is a room for "squares." Cubed storage, locker cubbies and checkered floor and bedding patterns bring symmetry to the space. Colorful books, toys and fun prints complete the look and make this any boy's dream room.

A whimsical treehouse loft bed with a tent and a view of the forest walls brings nature indoors—making every night feel like camping under the stars. A twin sleeper sofa underneath takes advantage of floor space. The pendant light adds an industrial touch, softened by a shaggy area rug.
